

LEGAL NOTICES**FCC STATEMENT:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Guaranteed to work all brands

One For All Universal Remote Controls use the world's largest and most efficient database of infrared codes for controlling Audio Video devices. This ensures that, in almost all cases, the remote is ready to control the desired device in a matter of minutes, or even less.

Setup code database

The memory of the remote contains the best selection of codes for the devices and the market, but the full One For All database is much larger and growing every day as new brands and functionality are introduced. For this reason there is a very small possibility that the code for a particular device is not in the memory of the remote you have purchased.

If you have the original (working) remote you can make use of the One For All remote's Learning feature which will allow you to copy functions from any working original remote control.

However, if the original is not available, all One For All remotes are guaranteed 100% compatible at the time of your purchase and to ensure this we offer a free upgrade service in the unlikely event that a code is missing from your remote and cannot be learned. Our free upgrade services is available during a period of one (1) year from the date of purchase of your remote.

Customer Support

As this solution differs per case, please contact our Customer Support Team with details of the remote you have purchased and the device not controlled and they will advise further. Often an alternative code can be recommended, or in some cases, the remote can be sent to our Customer Service to be upgraded and returned within a few days*. In the very unlikely case that we have no suitable code for your device, we guarantee to refund you 100% of the price you paid for the remote.

WARRANTY / GUARANTEE INFORMATION

Please note the guarantee only applies for AV devices that the remote is designed to control, for example a TV-only remote does not cover Set Top Boxes or Audio equipment. In the case of specific replacement remotes such as the OFA Samsung remote, the guarantee only covers infrared controlled TVs of the specific brand mentioned on the packaging. The guarantee covers only infrared controlled devices and does not apply for radio frequency controlled devices.

** The initial postage must be paid by the sender, return postage will be paid by One For All.*
